EDUCATION

Bachelor of Science in Computer Science

2023 - Present

University of Science and Technology of Southern
Philippines - Cagayan de Oro Campus, CGPA: 1.5632
Dean's List

Elementary to Senior High School

2011 - 2023

Prophet's Pen Academy, Gitagum, Misamis Oriental
Graduated Valedictorian from Grade 7 to Grade 11
School President and Graduated Salutatorian in Grade 12

SKILLS AND INTERESTS

Technical Skills: Full-Stack Web Development (React, NextJS, NodeJS, TypeScript, Django, FastAPI, Supabase, PostgreSQL, Redis, Tailwind CSS), Payment Integration (Stripe), Testing and CI/CD (Playwright, pytest, Vitest, Docker, GitHub Actions), Data Analytics, SQL, UI/UX and Graphic Design (Figma, Claude Design, Canva, Adobe Illustrator, Photoshop), Accessibility (WCAG), Technical and Creative Writing, Video Editing and Videography (Premiere Pro, After Effects, DaVinci Resolve)

Programming: Python, Java, JavaScript, TypeScript, C++, HTML/CSS

Software: Adobe Suite, Claude Code, Figma Make, GitHub, Docker, Vercel, Linux and Windows, Microsoft Office, Google Suite, Notion, n8n, Zapier, LottieFiles, Blender, Cinema4D

Languages: English (Fluent), Bisaya (Native), Tagalog

Interests: Web Development, Backend Systems, Machine Learning, Data Science, Research, Motion Graphics, 3D Modelling, Illustration, Music, Film, Literature, Content Creation

PROJECTS

TrailVenture, a Tour Package Booking Platform

August 2025 - November 2025

Solo Project, Full-Stack Developer

- Built a booking platform end to end on a Django REST API behind a NextJS frontend, covering search by destination, date and budget, package tiers, day-by-day itineraries, and Stripe checkout
- Calculated prices server-side as integer centavos behind a thirty-minute booking hold, with idempotent Stripe sessions and a signature-verified webhook that records event IDs to ignore replays
- Cached catalog responses in Redis under versioned keys invalidated on any catalog write, covered by 108 API, 50 unit, and 132 browser tests run in CI against a live database, Redis, and mail server
- Scored 100 for accessibility and SEO on Lighthouse across public pages, deployed on free-tier infrastructure at trailventure.jcrdev.me

Lead Developer for Steady, a Student Guidance and Counselling Platform

November 2025 - February 2026

Major Project as a part of curriculum

- Led a team of five building a web platform for a university guidance office, giving students, counsellors, and administrators separate areas, built using NextJS and Supabase
- Enforced access control in the database rather than the interface, using PostgreSQL row-level security and guard triggers, with notifications created only by database triggers and delivered live over websockets
- Verified by a 29-check database security suite and 73 unit tests in CI, and deployed as an early-access demo on sample data at steady-system.jcrdev.me

Corresponding Author on Post-Disaster Road Restoration using Novel Approaches such as Steiner Tree Approximation Algorithms

August 2025 - Present

Major Project as a part of curriculum and Proposed Thesis

- Developed novel approaches in optimizing post-disaster road restoration algorithms using Steiner tree approximation algorithms
- Performed with higher accuracy (approximation ratio) compared to other approximation and exact algorithms, at relatively fast runtime
- Held the 2-approximation bound across 30 randomly generated graphs and twelve Istanbul benchmark instances, and on Cagayan de Oro road network data
- One of the potential thesis proposals, with possible expansion on the use of neural networks or computer vision

Lead Video Editor for the University-Wide Intramurals

January 2026

University Student Government, USTP-CDO

- Lead in high-intensity video editing workload for the intramurals, using several creative tools such as Adobe Premiere Pro, After Effects, Photoshop, and Blender
- Edited nearly 1000+ videos in the span of a week, directed and helped on several intramural events such as Drag Queen promo video and short-form video content
- Helped in the cumulative 100k+ engagements in several social media platforms at the duration of the event, alongside several positive responses in organizations and online groups

RESEARCH PUBLICATION

John Carl Ramirez, Gerlie Campion, Kathleen Grace Gultiano, Junar Landicho "*Performance Analysis and Application of KMB 2-Approximation Algorithm in Finding Optimal Routes for Post-Disaster Road Network Restoration*"

Available at SSRN: <http://dx.doi.org/10.2139/ssrn.5277559>

May 2025

WORK EXPERIENCE

Enduro Group Business Consulting and Services

December 2025 - August 2026

Lead Designer and Branding Manager, Dallas, Texas

- Authored the firm's brand guidelines (version 2.0, 31 pages) in Figma and Claude Design, covering wordmark construction, clearspace, colour palette, type system, and application rules across print and digital
- Designed identity systems and responsive web pages for the Al-Bab Initiative and Xplore Land & Sea under the firm's name, built in Figma and Figma Make to WCAG accessibility standards
- Built a design operations workflow in Claude Code and Design, shipping each brand as a version-controlled repository using GitHub

STUDENT LEADERSHIP

Computer Science Student Society (CS3)

November 2025 - Present

CS3 Core Team Lead

- Led a selected group of computer science students focused on research and software solutions to computer science-related problems
- Currently building a unified website for USTP-CDO's Department of Computer Science and CS3, to showcase both the department and organization
- Currently restructuring and realigning the team to ensure maximum efficiency in the coming months

EXTRA-CURRICULAR

- Advanced to the Top 20 semifinalists of **Innovation Cup Mindanao 2026**

June 2026

- Completed **Wadhvani Foundation's Ignite Philippines** entrepreneurship coursework

May 2026

- Participated in Department of Information and Communications Technology (DICT)'s **AI.Deas Region X** at Hammerson Hotel, Cagayan de Oro City September 2025
- Secured Level 2 in **11th TOPCIT** (Test of Practical Competency in IT) November 2024
- Completed **freeCodeCamp's Responsive Web Design** certification August 2024
- Participated in **Google Developer Student Clubs - APAC Solution Challenge**, finished at 1st Place in USTP-CDO, competed at Asia-regional level March 2024
- Member of several student organizations such as University Student Government (Video Editing and Multimedia Head), 4-H Club USTP-CDO, and Computer Science Student Society (CS3) 2024 - Present

DECLARATION

I hereby declare that all the details furnished above are true to the best of my knowledge and belief.
